

# Surface Cleaning Products for Automotive & Industrial Markets

*Clean counts most*

# Why Contec?

## Reasons to choose Contec for your critical cleaning needs

Contec's customer-first approach and commitment to quality and innovation bring effective solutions to the most intensive manufacturing environments. Our innovative product line of dry wipes, gloves, presaturated wipes with various solvents and more shows our commitment to cleanliness for many industries around the world. Through proven expertise and side-by-side support, we build confidence and trust into every relationship.

**Innovation:** As a long-established leader in custom designed products for specific applications, many of our products were developed at customer requests. We take pride in developing innovative products that not only deliver outstanding performance but are cost-effective for our customers. We were the first to introduce presaturated wipes to automotive manufacturers to improve their process and reduce their VOC emissions. We continually rise to meet and exceed customer expectations by delivering solutions to their contamination control challenges.

**Support:** Our success would not be possible without the support our team provides. Contec has an experienced sales team who have helped customers through various types of challenges. Contec industry experts provide unmatched technical training and product assistance.

Our customers benefit from personalized service and fast, efficient sample and order turn around.

**Quality:** Both Contec manufacturing facilities are ISO 9001:2015 registered. As a vertically integrated manufacturer, Contec controls more of the manufacturing process than any of our competitors. We invite you to come visit our manufacturing facilities and find out for yourself the quality built into the products we make.

**Broad Capability and Product Line:** Our extensive industrial product line includes knitted wipes, woven and nonwoven wipes, presaturated wipes and mopping systems for industrial environments. In fact, we have the widest variety of presaturated wipes and wall mopping systems in the industry. Contact your sales representative and ask for a product sample. Our Samples Department takes care of both standard and custom product orders.

At Contec, Clean Counts Most.

# PROSAT® Presaturated Wipes & SATWIPES® Solvent Wiping Systems

## Presaturated wipes designed for cleaning and surface preparation

Originally developed by Contec as a safer, more efficient way to utilize solvents and wipes, PROSAT® Presaturated Wipes and SATWIPES® Solvent Wiping System are a convenient solution for many critical cleaning applications. For years, hand-cleaning processes utilized rags or shop towels and loose solvent containers, i.e. squeeze bottles, spray bottles, pails and plunger cans. Quite often, hazardous solvents are dispensed from gallon cans or drums directly onto rags. Contec's PROSAT and SATWIPES Solvent Wiping Systems are the better alternative.

Many industries are being required by governmental regulatory agencies to reduce the amount of solvents that evaporate and are released into the atmosphere during manufacturing and assembly. Hand wiping is one of several major ways that solvent emissions are released. Presaturated wipes are an effective way to reduce solvent emissions during wiping tasks while increasing operator safety and improving the quality of the finished product.

The biggest difference between Contec's Solvent Wiping Systems and traditional hand-wiping is solvent control and wiping consistency. Wipes are evenly saturated; the same amount of solvent is released every time an operator wipes a part. Additionally, our wiping material substrates are first-quality nonwoven and knitted fabrics, not rags or shop towels.

Contec's PROSAT Wipes and SATWIPES Solvent Wiping System consist of presaturated wipes dispensed from resealable pouches or durable, reusable canisters. Custom engineered to meet your needs, a variety of fabric substrates, pouches, and canisters are available. Wipes of various sizes can be saturated with your choice of solvents and blends. Ideal for surface preparation prior to paint, sealant or adhesive bonding applications, as well as composite surface wiping, Contec's presaturated wipes are the ultimate solvent wiping tool.

- PROSAT and SATWIPES are available with California compliant low VOC solvents
- Solvent control and wiping consistency
- Resealable pouches
- Reusable canisters

# PROSAT® Presaturated Wipes

Meltblown polypropylene with low particles and fibers

## Product information

Manufactured from meltblown polypropylene, these PROSAT® Presaturated Wipes offer exceptional cleanliness. They are low in nonvolatile residues as well as particles and fibers. Saturated with a blend of IPA and deionized water, these wipes are an excellent choice for general surface cleaning where fast drying times are desired. The use of presaturated wipes provides maximum process control. Presaturated wipes reduce VOC emissions and solvent use up to 35% compared to spraying. PROSAT Presaturated Wipes are provided in convenient and easy to use peel and reseal pouches.

PROSAT® Presaturated Solvent Wipes reduce VOC emissions while increasing operator safety. They provide consistency and improve the quality of surface preparation applications.

- Presaturated with isopropyl alcohol and deionized water means its an excellent choice when fast drying times are required
- Low in nonvolatile residue as well as particles and fibers making it ideal for multiple applications
- Reduces VOC emissions compared to spraying
- Ideal for surface preparation for prior to paint, sealant or adhesive applications

Part No.	Description	Size	Packaging
PSL70001	PROSAT Meltblown Polypropylene Wipes Presaturated with 85% IPA/15% DI water	16" x 17" (406 x 432 mm)	50/pouch; 15 pouches/case
PSP70002	PROSAT Meltblown Polypropylene Wipes Presaturated with 85% IPA/15% DI water	11" x 17" (280 x 432 mm)	50/pouch; 20 pouches/case
PSP0048	PROSAT Meltblown Polypropylene Wipes Presaturated with 85% IPA/15% DI water	9" x 11" (230 x 280 mm)	50/pouch; 40 pouches/case

Contact a sales representative for more options.

# SATWIPES® Solvent Wiping System

Nonwoven wipes presaturated with isopropyl alcohol

## Product information

Contec's SATWIPES® Solvent Wiping System consists of nonwoven presaturated wipes dispensed from a center-pull roll in a reusable canister. A variety of fabrics, canisters and solvents are available. All fabrics, canisters, pouches and lids have been proven to withstand contact with the harshest of solvents. To preserve product integrity, SATWIPES rolls are packaged in specially designed foil pouches, which are opened and loaded into sturdy SATWIPES canisters. Wipes can be saturated with many different solvents and blends. Various solvents are available including IPA, IPA/DI water blends, acetone, MEK, MPK, and naphtha.

SATWIPES are tailored to specific tasks in your facility. This ensures that the right size wipe with the correct amount of solvent is used each time. Durable reusable canister with self-closing lid reduces waste, solvent use and VOCs.

- Perforated rolls with self-closing lids help to prevent wipes from drying out
- Reusable dispenser reduces solvent handling
- Different sizes and wipe quantities available for various customer needs

Part No.	Description	Size	Packaging
SAT-C3-100	SATWIPES Wipes Presaturated with 99% IPA, 750 ml	6" x 9" (152 x 230 mm)	100/roll; 12 rolls + canister/case
SAT-C3-7030	SATWIPES Wipes Presaturated with 70% IPA/30% DI water, 745 ml	6" x 9" (152 x 230 mm)	100/roll; 12 rolls + canister/case
SAT-C3-8515	SATWIPES Wipes Presaturated with 85% IPA/15% DI water, 723 ml	6" x 9" (152 x 230 mm)	100/roll; 12 rolls + canister/case
SWC30029	SATWIPES Wipes Presaturated with 95% IPA/5% DI water, 765 ml	5.8" x 6" (147 x 152 mm)	150/roll; 12 rolls + canister/case
SWC30048	SATWIPES Wipes Presaturated with 95% IPA/5% DI water, 475 ml	4.25" x 4" (108 x 102 mm)	185/roll; 12 rolls + canister/case

Contact a sales representative for more options.

# SATWIPES® Hand Scrubber Tools

Hand & general purpose cleaning wipes

## Product information

SATWIPES® Hand Scrubber Towels are a superior value hand cleaner/towel combination. The powerful solution does not contain any solvents which dry out your skin. Yet, it very effectively dissolves grease, grime, oil, lubricants, paints, tar, inks and more. Soils are lifted from your hands and captured in the heavy-duty towel. The solution is virtually VOC-free making it very environmentally friendly.

SATWIPES Hand Scrubber Towels feature a dual-textured towel with orange scrubber on one side for deeper, faster cleaning. Made from polypropylene material, the towels stay moist for hours allowing for multiple uses.

SATWIPES Hand Scrubber Towels are convenient and economical to use. The compact canister saves space when compared to most competitive products. Each canister has a handy, resealable dispensing top. The hand cleaner/towel combination eliminates the need for paper towels, shop rags or water. Best on grease, paints, tar, oils and lubricants, inks and more.

- No solvents, keeping your skin from drying out
- Ultra strong scrubber wipe for tough cleaning
- Effectively dissolves grease, grime, oil, lubricants, paints, tar, inks and more
- The hand cleaner/towel combination eliminates the need for paper towels, shop rags or water

Part No.	Description	Size	Packaging
SWHST0004	SATWIPES Meltblown Polypropylene Wipes Preloaded canisters	12" x 10" (305 x 250 mm)	72/canister; 6 canisters/case
SWHST0004REFILL	SATWIPES Meltblown Polypropylene Wipes Refill rolls	12" x 10" (305 x 250 mm)	72/roll; 8 rolls/case

# Quiltec® I Wipes

## 2-ply quilted polyester wipes

### Product information

Quiltec® I Wipes offer the highest sorptive capacity of any sealed edge wipe available. It is manufactured using two layers of knitted polyester fabric that are laminated together to form a stronger, more adsorbent wipe. Additional fluid is captured within the quilted pockets between the fabric layers, increasing the sorbent capacity.

Quiltec I Wipes have more than twice the adsorbent capacity of a single layer wipe. Ideal for cleaning paint bells.

Part No.	Description	Size	Packaging
QT1-99	Quiltec I Wipes Flat stacked	9" x 9" (230 x 230 mm)	100/bag; 10 bags/case
QT1-99B	Quiltec I Wipes Bulk	9" x 9" (230 x 230 mm)	150/bag; 6 bags/case
QT1-1212	Quiltec I Wipes Flat stacked	12" x 12" (305 x 305 mm)	100/bag; 5 bags/case
QT1-1212/100	Quiltec I Wipes Bulk	12" x 12" (305 x 305 mm)	100/bag; 5 bags/case
BELLRINGR25	Quiltec I Wipes Bulk	14" x 16" (356 x 406 mm)	25/bag; 10 bags/case

- Most sorbent sealed edge wipe
- Extremely low in both particles and fibers reducing possibility of contamination
- Strong fabric is abrasion and chemical resistant
- Excellent sorbency with solvents

# Polynit Wipes

## 100% textured polyester no-run interlock knit wipe

### Product information

Polynit Wipes are made of 100% knitted textured polyester with heat sealed edges or knife cut edges for a very soft wipe. The soft edge is ideal for use on surfaces which are vulnerable to scratching. The heat sealed edge prevents release of fibers. Polyester wipes are chemical resistant and exceptionally low in particles and fibers. An interlock knit creates a durable fabric, the addition of a periodic additional stitch of a no-run interlock knit prevents the fabric unraveling creating an even more durable fabric with strong edges.

Part No.	Description	Size	Packaging
PN-99B	Polynit Wipes Bulk	9" x 9" (230 x 230 mm)	300/bag; 4 bags/case
PN-1212B	Polynit Wipes Bulk	12" x 12" (305 x 305 mm)	150/bag; 4 bags/case
PNHS-99B	Polynit Wipes Bulk	9" x 9" (230 x 230 mm)	300/bag; 4 bags/case
PNHS-1212B	Polynit Wipes Bulk	12" x 12" (305 x 305 mm)	75/bag; 10 bags/case

- Laundered knitted 100% polyester fabric for extremely low levels of particles and fibers
- Soft edge is ideal for use on surfaces which are vulnerable to scratching
- 100% knitted polyester is compatible with many solvents
- Durable fabric is abrasion and chemical resistant

- Durable polyester provides excellent sorbency
- Heat cauterized edges naturally roll outward reducing the potential for particles from cut fibers
- Lacoste ribbed knit is excellent on coarse and rough sanded surfaces
- Jersey knit has a smoother texture and is highly sorbent

# CleanTube™ Wipes

100% polyester knit tubular wipes

## Product information

CleanTube™ Wipes from Contec® bring the cleanliness of controlled environments to the automotive industry. Constructed of 100% polyester knit and available in a variety of lengths, CleanTube Wipes are ideal for many automotive and surface preparation applications. Originally designed for removing excess sealant, the low-lint CleanTube Wipes are excellent for cleaning paint automation equipment as well.

Contec's CleanTube Wipes are available in a variety of sizes for different applications. Jersey knit is available in 7" and 9" widths. Lacoste knit is available in 7", 10" and 12" widths. Jersey and Lacoste knit CleanTube length can vary depending on specific customer needs. Lacoste knit tubes are also available in black for high color contrast in sealant finishing environments. Customers find longer lengths to be useful as robotic arm covers as well.

Part No.	Description	Size	Packaging
LWTW0016	CleanTube Wipes Tubular lacoste ribbed knit	10" x 12" (250 x 305 mm)	100/bag; 5 bags/case
LWTW0030	CleanTube Wipes Tubular lacoste ribbed knit	10" x 14.5" (250 x 368.3 mm)	78/bag; 5 bags/case
LWTW0031	CleanTube Wipes Polyester jersey smooth knit	9" x 24" (230 x 609 mm)	53/bag; 5 bags/case
LWTW0032	CleanTube Wipes Polyester jersey smooth knit	9" x 34" (230 x 864 mm)	36/bag; 5 bags/case
LWTW7J10	CleanTube Wipes Polyester jersey smooth knit	7" x 10" (178 x 250 mm)	100/bag; 5 bags/case
LWTW7L10	CleanTube Wipes Polyester lacoste ribbed knit	7" x 10" (178 x 250 mm)	100/bag; 5 bags/case

Contact a sales representative for more options.

# CleanTube™ RevWipes™

100% filament polyester

## Product information

Sustainability has become a priority for many organizations, including many of those in the automotive industry. Manufacturers and end users alike are realizing the importance of recycling today for the good of tomorrow but must also be aware of the cleanliness required for their operations. Not only is the supply chain of recycled products a concern, but also the inherent risk of using recycled materials. The revolutionary recycling process for this recycled polyester converts post-consumer plastic bottles to 100% continuous filament polyester, the same substrate used in Contec's standard polyester tubular wipes.

Made from 100% recycled plastic bottles, Contec knits 30% recycled yarn into a blend with 70% virgin polyester yarn to make our tubewipes. The tube wipes are then laundered and packaged in a controlled environment and are low in extractables, particles and fibers. This recycled yarn is compatible with common automotive and surface preparation solvents. Using CleanTube™ RevWipes™ made with recycled yarn allows us to incorporate sustainability without compromising quality or performance.

- Made from recycled plastic bottles diverts recyclable materials from landfills
- 100% filament polyester makes it compatible with common solvents
- Low in particles and fibers gives it a lower risk of particulate contamination during use

Part No.	Description	Size	Packaging
LWTW7J9GCR	CleanTube RevWipes 70% virgin polyester/recycled yarn blend	7" x 9" (178 x 230 mm)	500/bag; 10 bags/case

- Designed for polishing exterior surfaces in automotive manufacturing
- Ideal for cleaning prior to application of side trim or other moldings
- Effortlessly removes both oil-based and water-based residues and dirt from surfaces

## Thunderbuff™ Wipes

Silicone-free nylon/polyester microfiber wipe

### Product information

Thunderbuff™ Wipes are silicone-free, terry-style woven wipes made of nylon/polyester microfiber. The keys to the incredible performance of this microfiber are the size, shape, and composition of the fibers used to make the threads of the cloth.

Thunderbuff Wipes effortlessly remove both oil-based and water-based residues and dirt from surfaces.

Part No.	Description	Size	Packaging
LWTB0001	Thunderbuff Wipes Green, bulk	16" x 16" (406 x 406 mm)	10/bag; 4 bags/case
LWTB0006	Thunderbuff Wipes White, bulk	12" x 12" (305 x 305 mm)	10/bag; 6 bags/case

- High sorbency capacity for fast absorption
- Very low particle generation ideal for damp sanding residue removal
- Sealed edges to provide barrier to fibers and particles
- Can be relaundered making it an economical choice

## SuperBuff™ Wipes

Polyester microfiber super low-lint automotive wipes

### Product information

SuperBuff™ Wipes are a very soft, silky polyester microfiber wipe with non-abrasive thermally sealed edges to provide barrier to fibers and particles. Cleanroom laundered, SuperBuff Wipes sealed edges provides a barrier to fiber and particle generation. It can be relaundered up to 5 times. Very low particle generation makes it ideal for damp sanding residue removal and moist sand pick up.

Part No.	Description	Size	Packaging
492275-970	SuperBuff Wipes	21" x 20" (533 x 510 mm)	5 lbs/bag; 5 bags/case
492275-975	SuperBuff Wipes Bulk	12" x 18" (305 x 460 mm)	5 lbs/bag; 5 bags/case

# MicroSilk™ Wipes

Polyester/nylon soft texture wipe for delicate surfaces

## Product information

MicroSilk™ wipes are made of polyester and nylon. Excellent sorbency and a soft texture makes them an excellent wipe for cleaning delicate surfaces. MicroSilk is laser cut, which seals the fibers at the edges of the wipe. This results in a very clean, nonabrasive edge, which allows for 100% utilization of the wipe surface. It is extremely low in fiber and particle generation. The uniquely delicate surface and non-scratching characteristics, along with its sorbent capabilities make MicroSilk Wipes are well suited for applications such as wet sand wiping, removing particles, and removing liquids and more viscous fluids.

Part No.	Description	Size	Packaging
LWMS0001	MicroSilk Wipes Bulk	16" x 16" (406 x 406 mm)	25/bag; 4 bags/case

- Extremely low in fiber and particle generation
- Soft texture is excellent for delicate surfaces where scratching is a concern
- Excellent for removing particles, liquids and more viscous fluids
- Laser cut, which seals the fibers at the edges of the wipe

# Anticon® Gold Sorb™ Wipes

Polyester microfiber super low-lint automotive wipes

## Product information

Anticon® Gold Sorb™ Wipes are a unique wipe which combines the performance of a microfiber yarn with that of a polyester yarn to create a wipe with superior wiping and sorptive characteristics. The proprietary sealed edges of these wipes allow the use of 100% of the wipe for cleaning without the worry of harming delicate surfaces. Anticon Gold Sorb Wipes have no abrasive borders, making them particularly suitable for cleaning sensitive components.

Part No.	Description	Size	Packaging
491730-130	Anticon Gold Sorb Wipes, unlaundered	30" x 20" (762 x 508 mm)	10 lbs/bag; 30 bags/gaylord
491728-002	Anticon Gold Sorb Wipes, unlaundered, Bulk	12.6" x 16" (320 x 406 mm)	5 lbs/bag; 5 bags/case

- Unique microfiber provides superior residue and particle removal even when dry
- Sealed edges to reduce particle and fiber generation
- High sorptive capacity and fast adsorption rate for superior spill control
- Manufactured from unique microfiber yarn which provides cleaner performance than other common microfiber wipes

- Apertured surface texture
- Pressure sensitive tack formulation
- Minimum levels of tack transfer

# Tax-Fre<sup>®</sup> Tack Cloth

## Nonwoven tack wipe

### Product information

The Tax-Fre<sup>®</sup> nonwoven tack cloth has been specifically engineered to provide excellent contamination removal from surfaces without sticking, grabbing, or transferring tack adhesive to the surface. Apertured surface texture maximizes cleaning efficiency and dirt retention capacity. Pressure sensitive tack formulation; the harder you press, the better it works. A unique polymer adhesive gives the Tax-Fre cloth a soft, dry feeling, free of tackiness, or stiffness similar to the adhesive used on removable sticky notes.

Part No.	Description	Size	Packaging
TAX-FRE	Tax-Fre Tack Cloth	10" x 18" (250 x 460 mm)	100/bag; 4 bags/case

# Polyester Tack Cloth

## Knitted, sealed edge polyester tack cloth

### Product information

Polyester Tack Cloth is developed with knitted selvaged edges and heat sealed cuts to reduce snags and fibers. The Tack Cloth is manufactured using a high temperature and pressure tack 'thermoset' impregnation process, which significantly reduces invisible residue build-up that may react with other finishing materials to cause coating defects such as marring and streaking.

The heavy tack Tack Cloth is not suitable for Class-A Surface but has no VOCs. The heavy tack level is perfect for maintenance and industrial tack applications.

The standard tack Tack Cloth is 100% polyester low-lint cloth available with textured or smooth and is suitable for Class-A Surface. The standard tack level cleans surfaces prior to primer coating, top-coating and clear-coating, and cleans surfaces of all debris while transferring no residue.

20 fabric is 100% polyester knit low nap fabric and has smooth texture on both sides of the cloth.

80 fabric is 100% polyester knit higher nap fabric. It has textured, higher nap feel on both sides of the cloth. The higher pile increases dirt collecting surface area of the filaments and improves cloth penetration into surface irregularities during wiping.

Custom sizes are available.

- Sealed edges to reduce fibers and snags
- Industrial tack applications
- No VOCs
- Will not dry out or harden
- Non-toxic
- Solvent, silicone and wax-free

Part No.	Description	Size	Packaging
BS20CB-12	Polyester Tack Cloth, 20 fabric	9" x 12" (230 x 305 mm)	100/bag; 5 bags/case
BS20CB-16	Polyester Tack Cloth, 20 fabric	9" x 16" (230 x 406 mm)	100/bag; 5 bags/case
BS20CS	Polyester Tack Cloth, 20 fabric	9" x 18" (230 x 460 mm)	100/bag; 5 bags/case
BS80CB-12	Polyester Tack Cloth, 80 fabric	9" x 12" (230 x 305 mm)	100/bag; 4 bags/case
BS80-16	Polyester Tack Cloth, 80 fabric	9" x 16" (230 x 406 mm)	100/bag; 4 bags/case
BS80CB	Polyester Tack Cloth, 80 fabric	9" x 18" (230 x 460 mm)	100/bag; 4 bags/case

- Hydroentangled nonwoven wipes are strong and durable without the use of binders
- Medium and heavy-duty wipes available to allow user to match the ideal wipe for the specific application
- Offers strength wet or dry, no residues or binders left behind
- Highly sorbent without the use of surfactants

- Strong and durable
- Excellent sorbency
- Lightly creped to provide a soft feel

## TuffStuff™ Wipes

Polyester/cellulose critical task wipes

### Product information

TuffStuff™ Wipes are high quality critical task wipes. Available in light, medium and heavy duty, these wipes are solvent resistant and maintain their strength even when wet. TuffStuff Wipes offer exceptional durability and cleanliness. TuffStuff Wipes are available in multiple sizes, weights, and packaging configurations to meet various customer needs.

The expanded range includes TuffSat™, consisting of heavy-duty dry wipes, quarter folded in a tub that can be saturated with cleaning solution. This versatile option allows wipes to be customized with the correct cleaning solution for a specific environment.

Part No.	Description	Size	Packaging
TSWC0917	TuffStuff™ Heavy Duty Wipes Pop-up dispenser box	9" x 16.5" (230 x 419 mm)	100/box; 8 boxes/case
TSGA1213B	TuffStuff™ Wipes, Quarter folded	12" x 13" (305 x 330 mm)	50/bag; 20 bags/case
TSWC1214	TuffStuff™ Heavy Duty Wipes Roll-in dispenser box	12" x 13" (305 x 330 mm)	500/roll; 1 roll/dispenser case
TSWC1217	TuffStuff™ Heavy Duty Wipes Double pop-up dispenser box	12" x 16.5" (305 x 419 mm)	125/box; 2 boxes/case

Contact a sales representative for more options.

## Sontara® Multipurpose Shop Towels

Durable, absorbent, low-linting towel

### Product information

Sontara® Multipurpose Shop Towels offer strength, absorbency and versatility with exceptional performance. The towels are lightly creped for a soft feel. They are available quarter folded, and in single or double pop-up dispenser boxes.

Part No.	Description	Size	Packaging
MP1213BG	Sontara Multipurpose Shop Towels, blue, quarter folded	12" x 13" (305 x 330 mm)	900/box; 1 box/case
MP15165WT	Sontara Multipurpose Shop Towels, white, textured, flat stacked	15" x 16.5" (380 x 420 mm)	300/case

# Knitted Polyester Gloves

## Laundered gloves

### Product information

Knitted Polyester Gloves are laundered in a controlled environment for automotive paint spray booth and sealer line processes. Gloves are full-fingered 100% knitted polyester and will not shrink. The construction of the silicone-free glove allows the wearer to maintain tactile sensitivity and dexterity. Features an elasticized wristband for a secure fit and gloves are color-coded by size for easy identification. Available in both 2" and 6" cuff lengths.

Contec has a large number of options available. For more information on the gloves, please go to [surfaceprep.contecinc.com](http://surfaceprep.contecinc.com).

- Available laundered and unlaundered
- Available in both 2" and 6" cuff lengths
- Available in white and black
- Will not shrink
- 100% knitted polyester

Description	Size	Packaging
Knitted Polyester Gloves Laundered, white, available in 2" and 6" cuff lengths	XXS - L	12 pair/bag; 12 bags/case
Knitted Polyester Gloves Lightweight construction, laundered, black, 2" cuff length	XS - L	12 pair/bag; 12 bags/case
Knitted Polyester Gloves Laundered, white, 2" cuff length	XXS - XXL	12 pair/bag; 30 bags/case
Knitted Polyester Gloves Lightweight construction, laundered, white, 2" cuff length	XXS - XL	12 pair/bag; 12 bags/case
Knitted Polyester Gloves Lightweight construction, unlaundered, black, 2" cuff length	XS - XL	12 pair/bag; 40 bags/case
