

Multi-Bucket Systems

Multi-Bucket Systems for use with Contec's mops

Contec's Multi-Bucket System offers maximum flexibility and can be fitted with two or three buckets, in either stainless steel or polypropylene. An extendable frame pulls out of the front of the cart to accommodate an additional bucket. Lightweight and easy to maneuver, the cart is fully autoclavable and features non-marring wheels.

This multi-bucket system offers the ability to customize the system with whichever wringer best coincides with in-house protocols. The system is compatible with two stainless steel downpress wringer options to accommodate both flat and string mops.

Autoclavable at 121° C for 30 minutes.

Features	Benefits
Interchangeable wringers	<ul style="list-style-type: none"> Compatible with two stainless steel downpress wringer options allows for the system to accommodate both flat and string mops
Removable handle	<ul style="list-style-type: none"> Makes for easier autoclaving and storage
Buckets are deep drawn and seamless	<ul style="list-style-type: none"> Reducing the risk of microbial contamination
A lip around the edge of the buckets	<ul style="list-style-type: none"> Allow for easy lifting

Part No.	Description	Size	Packaging
2707	Stainless Steel Multi-Bucket System Two 7 gallon (27 L) stainless steel buckets and casters	7 gallon (27 L)	1/case
2650	Polypropylene Multi-Bucket System Two 6.5 gallon (25 L) polypropylene buckets and casters	6.5 gallon (25 L)	1/case
2617	Stainless Steel Bucket Replacement bucket	7 gallon (27 L)	1/case
UBKT0001	Blue Polypropylene Bucket Replacement bucket	6.5 gallon (25 L)	1/case
UBKT0002	Red Polypropylene Bucket Replacement bucket	6.5 gallon (25 L)	1/case
UBKT0003	Gray Polypropylene Bucket Replacement bucket	6.5 gallon (25 L)	1/case
6037	Stainless Steel Downpress Wringer for Edgeless Mop	-	1/case
2756	Stainless Steel Downpress Wringer for flat mops	-	1/case

Product Information	
Materials of construction	
Cart	Stainless steel, type 304
Wringer	Stainless steel, type 304
Casters	Stainless steel frames with blue Krypton™ autoclavable wheels
Finish	Electropolished
Buckets	Stainless steel, type 316, deep drawn Polypropylene copolymer
Packaging materials	Case (CS), corrugated fiberboard (PAP) 
Dimensions	26" x 24" x 36" (66 x 60 x 92 cm)
Wringers (sold separately)	2756 - Stainless Steel flat mop wringer (for VertiKlean®, VertiKlean® MAX™, and QuickTask™) 2995 - Stainless Steel downpress wringer (for Edgeless® Mop)
Replacement casters	2647 - Blue caster, swivel with brake 2648 - Blue caster, fixed

Notes

- a) The data shown are typical values and should not be used as product specifications.
- b) Valid product comparisons may only be obtained through side-by-side testing in the same test facility, under similar conditions.
- c) Current and/or comparison data may be available. Please contact a Contec sales representative for details.

Test Methods

- 1. CTM = Refers to Contec Test Method.
- 2. Mop coverage data is based on mop head applying solution such that the mopped surface is visibly wetted across the full mop path with no dry streaking observed, under controlled conditions. It is the responsibility of the user to determine appropriate coverage to ensure surfaces are visibly wet for the contact time required for their specific solution.
