

QuickTask Microfibre Mop Head

Single use 100% polyester single-loop microfibre flat mop head

QuickTask Microfibre Mop Heads are manufactured from 100% single-loop microfibre around a polyester / rayon core. The fabric is ultrasonically cut to reduce fibre shedding and provide a microfibre mop that is ideal for cleanrooms with small numbers of particle and fibres.

The single-loop microfibre provides exceptional absorbency so the mops are suitable for single use saturation, giving a surface coverage up to approximately 22 sqm. 10 mopheads need to be saturated with 3L of disinfectant.

The mop heads are designed for hands-free fitting to the mop head frame when used with an "A frame" applicator. The heads are compatible with the QuickTask Magnetic Mop Head Frames 2906 and 2699P, and the QuickTask Polypropylene Mop Frame 2740.

QuickTask Microfibre Mop Heads are suitable for the application of disinfectants and removal of light soil, residues and biofilms. Designed for single use, the mop heads are compatible with a wide range of chemicals and disinfectants.

TASK0850 is gamma irradiated at no less than 25kGy, with certificates of conformity and irradiation available for every batch. Five mops are double bagged for easy transfer into the cleanroom environment.

Features	Benefits
100% single-loop microfibre mop heads	<ul style="list-style-type: none"> • Low levels of particle and fibres • Compatible with a wide range of disinfectants and detergents • Excellent surface contact
High sorbency	<ul style="list-style-type: none"> • Approx 22 sqm coverage per mop so ideal for presaturation systems • Saves time as reduces number of visits back to a bucket system
Available sterile	<ul style="list-style-type: none"> • Suitable for use in Grade B cleanrooms
Suitable for hands free mop application *	<ul style="list-style-type: none"> • Easy and convenient to use • Reduces cross contamination
Double bagged	<ul style="list-style-type: none"> • Facilitates transfer into cleanrooms and critical environments

* with appropriate hardware

Part No.	Description	Size	Packaging
TASK0800	QuickTask Microfibre Mop Head	39 x 13 cm	5 mops per bag 8 bags per case
TASK0850	QuickTask Sterile Microfibre Mop Head	39 x 13 cm	5 mops per bag 8 bags per case

Product Information	
Material	<ul style="list-style-type: none"> 100% single-loop microfibre around a polyester/rayon core synthetic fibrefill core
Construction	<ul style="list-style-type: none"> Multi-layer sewn lamination / ultrasonically cut
Environment	<ul style="list-style-type: none"> ISO 5-8 Grade B for sterile; C/D for nonsterile
Shelf life	<ul style="list-style-type: none"> Sterile 2 years from manufacturing date

Technical Data		
Attribute (units)	Typical Value	Test Method
Mop weight, dry; (g/mop)	54	CTM004-03
Sorbent capacity; (mL/mop)	417	CTM004-03
Non-volatile residue, NVR		IEST-RP-CC004.3, Sec. 7.1.2
In deionized water; (g/m ²)	0.002	
In isopropyl alcohol; (g/m ²)	0.18	
Particles, readily releasable		IEST-RP-CC004.2, Sec. 5.2
Particles ≥ 0.5µm; (x10 ⁶ /mop)	164.8	
Fibres ≥ 100µm; (x 10 ³ /mop)	0.79	

Notes

- a) The data shown are typical values and should not be used as product specifications.
- b) Valid product comparisons may only be obtained through side-by-side testing in the same test facility, under similar conditions.
- c) Current and/or comparison data may be available. Please contact a Contec sales representative for details.

Packaging Information

Packaging Materials	Outer bags	Low density polyethylene (LDPE) 		
	Case	Corrugated fibreboard (PAP) 		
Packaging Configuration		EA/OB1	OB1/CS	EA/CS
	TASK0800	5	8	40
	TASK0850	5	8	40

EA = Each, PCH = Pouch, OB = Outer Bag 1/2/3, CS = Case
