

SterileSorb™ Wipes

Cellulose/polyester nonwoven wipes

SterileSorb™ wipes are sterile low-lint hydroentangled polyester/cellulose wipes ideal for general-purpose cleaning in sterile environments. These sterile, nonwoven wipes are sterilized by gamma irradiation and validated sterile per AAMI (Association for the Advancement of Medical Instrumentation) 11137 guidelines to a 10⁻⁶ SAL (Sterility Assurance Level) making them suitable for ISO 5 environments to include Primary Engineering Controls (PEC) as required by USP <797>.

SterileSorb is packaged as a sterile peelable outer bag and linear tear inner bag designed for sterile products with embossed lot numbers on both inner and outer bags to ensure lot traceability.
