

Cleaning Product Recommendations for Gyms, Spas, and Athletic Facilities

Clean counts most

Keep your equipment and facility in the best possible shape

When it comes to improving health, eating right and exercising are the two most recommended activities. It's important to keep the places where people work out clean to avoid spreading germs. Sweat left on equipment, dirty high-touch surfaces, and other hazards can counteract the health benefits your clients are trying to achieve. They can also hasten the deterioration of equipment and facility conditions.

Contec® has a long history of providing the best products for taking care of facilities where clean counts most. We offer a full product portfolio for cleaning and maintaining athletic facilities and both fitness equipment. Our superior single-use mops, wipes, and dusters pick up more dirt and grime than competitors. They also help increase cleaning efficiency and improve the consistency in results. Our hardware is durable yet lightweight, helping to reduce strain and ergonomic issues related to cleaning.

Some of the areas where Contec® Professional mops, wipes, dusters, and hardware are used include:

- Lobbies and reception areas
- Gyms and weightrooms
- Yoga and dance studios
- Treatment rooms
- Kitchenettes and cafés
- Restrooms and showers
- Lockers and changing areas
- Gymnastic equipment and mats
- Weights and fitness machines
- Treadmills and stationary bikes
- Hallways, stairwells, and handrails
- Windows, glass walls and mirrors

For more information about how Contec Professional can help keep your facility in tip-top condition, please visit Professional.Contecinc.com or contact your local Contec rep.

Mops

We provide single-use microfiber mop pads, disposable string mops, spill pads, and more for cleaning and maintaining all types of flooring.

Wipes

Available in both perforated rolls and quarter folded styles, we offer a wide variety of wipes for cleaning any surface.

Dusters

Our dusters come in multiple options for every hard-to-reach area and also can be used with our disposable dusting sheets.

Hardware

Along with patented backer plates, our ultra-lightweight hardware and space-saving accessories are developed to maximize cleaning efficiency.
