# Premira Disposable Microfiber Mop Pads & Hand Pads

**Removes 99.93% or more of tested fungi, viruses, & bacteria\***

In testing from an independent lab

**Helps reduce cross-contamination**

With a new wipe or mop for each use

**Compatible with common disinfectants**

Including Quat (does not bind)

**100% synthetic Premira® Microfiber Floor Pads provide superior dirt and debris removal compared to reusable textiles like cotton or laundered microfiber.**

Premira disposable microfiber improves the look and cleanliness of your facility while also reducing cross-contamination risks with a new pad for each use.

Premira® Disposable Microfiber Mops (PRMM0001) and Hand Pads (PRMW0003, PRMW0015) have been proven to remove ≥99.93% of microorganisms, such as bacteria, fungi, and bacterial spores, with just water\*. These patented mops are the all-around best solution for cleaning areas of your facility where clean counts most to provide product and technical support to multinational customers with global needs.

\*Pesticidal device claims pending approval in the following state: Hawaii

## Mop Pads & Hand Pads

<i>Candida albicans</i> * <i>C. albicans</i>	99.97%
