# SAFETY DATA SHEET

#### 1. Identification

Product identifier	Presaturated wipes containing 100% VM&P Naptha (LQSC)		
Other means of identification			
SDS number	LQSC3032		
Product code	PSPP0019, SAT-C3-VMP		
CAS number	64742-89-8		
Recommended use	Presaturated cleaning wipes.		
Recommended restrictions	Uses other than the recommended use.		
Manufacturer/Importer/Supplier/	Distributor information		
Company Name	Contec, Inc.		
Address	525 Locust Grove		
	Spartanburg, SC 29303		
	USA		
Telephone	1-864-503-8333		
Email	SDS@contecinc.com		
Emergency phone number	Call CHEMTREC day or night		
	USA/Canada: 1.800.424.9300		
	Mexico: 1.800.681.9531		
	Outside USA/Canada: +1.703.527.3887		
2. Hazard(s) identification			
Physical hazards	Flammable liquids Category 2		
Health hazards	Skin corrosion/irritation	Category 2	
	Specific target organ toxicity, single exposure	Category 3 narcotic effects	
	Aspiration hazard	Category 1	
Environmental hazards	Hazardous to the aquatic environment, acute hazard	Category 2	
	Hazardous to the aquatic environment, long-term hazard	Category 2	
OSHA defined hazards	Not classified.		
Label elements			
Signal word	Danger		
Hazard statement	Highly flammable liquid and vapor. May be fatal if swallowed and enters airways. Causes skin irritation. May cause drowsiness or dizziness. Toxic to aquatic life with long lasting effects.		
Precautionary statement			
Prevention	Keep away from heat/sparks/open flames/hot surfaces No smoking. Keep container tightly closed. Use only non-sparking tools. Take precautionary measures against static discharge. Avoid breathing mist/vapors. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Wear protective gloves/protective clothing/eye protection/face protection.		
Response	If swallowed: Immediately call a poison center/doctor. Do NOT induce vomiting. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before reuse. If inhaled: Remove person to fresh air and keep comfortable for breathing. Call a poison center/doctor if you		

Remove person to fresh air and keep comfortable for breathing. Čall a poison center/doctor if you

feel unwell. In case of fire: Use appropriate media to extinguish. Collect spillage.

Storage	Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up.
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	Although the product as a whole is in solid format, the product does not meet the OSHA HCS definition of a flammable solid as per Appendix B to 1910.1200 - Physical Hazard Criteria, section B.7.1 and B. 7.2.

#### 3. Composition/information on ingredients

Substances

Substances			
Chemical name	Common name and synonyms	CAS number	%
Light aliphatic petroleum solvent naphtha		64742-89-8	100
Composition comments	All concentrations are in percent by weight.		
4. First-aid measures			
Inhalation	Not relevant, due to the form of the product. Heep comfortable for breathing. Call a poison		
Skin contact	Take off immediately all contaminated clothin occurs: Get medical advice/attention.	g. Rinse skin with water/shower	If skin irritation
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Get medical attention if irritation develops and persists.		
Ingestion	Not relevant, due to the form of the product. If poison control center immediately. Rinse mou head low so that stomach content doesn't get	uth. Do not induce vomiting. If vo	
Most important symptoms/effects, acute and delayed	Aspiration may cause pulmonary edema and Headache. Nausea, vomiting. Direct contact irritation. May cause redness and pain.		
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and tre immediately. While flushing, remove clothes v ambulance. Continue flushing during transport Symptoms may be delayed.	which do not adhere to affected	area. Call an
General information	Take off all contaminated clothing immediated material(s) involved, and take precautions to before reuse.		
5. Fire-fighting measures			
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carb	on dioxide (CO2).	
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as th	is will spread the fire.	
Specific hazards arising from the chemical	Vapors may form explosive mixtures with air. of ignition and flash back. During fire, gases h		
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full p	rotective clothing must be worn	n case of fire.
Fire fighting equipment/instructions	In case of fire and/or explosion do not breather so without risk. Use water spray to cool unop- environmental damage.		
Specific methods	Use standard firefighting procedures and con	sider the hazards of other involv	ed materials.
General fire hazards	Solid containing flammable liquid.		

#### 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist/vapors. Do not taste or swallow. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up	Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Take precautionary measures against static discharge. Use only non-sparking tools. This product will sediment in water systems. The liquid solvent solution is miscible in water. Spills are very unlikely, because the wiper fabric has absorbed the liquid solvent solution. In the event of a spill, contain with an inert absorbent. Collect the wipes with a non sparking tool and absorb or wipe any residual liquids. Used wipes must be disposed in a closed container. Prevent entry into waterways, sewer, basements or confined areas.
	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.
7. Handling and storage	
Precautions for safe handling	WARNING! Used wipes may catch fire if improperly discarded or stored near ignition sources. Do not handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. When using do not smoke. Take precautionary measures against static discharges. Do not taste or swallow. Avoid breathing mist/vapors. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Avoid release to the environment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Keep away from heat, sparks and open flame. Store in a cool, dry place out of direct sunlight. Store in tightly closed container. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS).

# 8. Exposure controls/personal protection

## Occupational exposure limits

Material	Туре	Value
Light aliphatic petroleum solvent naphtha (CAS 64742-89-8)	PEL	400 mg/m3
		100 ppm
	erous to Life or Health (IDLH) Values	
Material	Туре	Value
Light aliphatic petroleum solvent naphtha (CAS 64742-89-8)	IDLH	1 %
		1000 ppm
US. NIOSH: Pocket Guide	to Chemical Hazards	
Material	Туре	Value
Light aliphatic petroleum solvent naphtha (CAS 64742-89-8)	TWA	400 mg/m3
		100 ppm
logical limit values	No biological exposure limits noted	for the ingredient(s).
oosure guidelines	Follow standard monitoring procedures.	
propriate engineering htrols	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits.	
ividual protection measure	s, such as personal protective equip	ment
Eye/face protection	If splashing is possible, wear safety	glasses with side shields (or goggles).
Skin protection		
Hand protection	manufacturer concerning permeabi conditions (mechanical strain, dura Recommended materials: Neopren	e. Polyvinyl chloride (PVC). Polyethylene. Chlorinated oolyethylene). Natural rubber. Nitrile rubber/Nitrile latex - NE ").

Skin protection Other	Wear suitable protective clothing.
Respiratory protection	If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. Chemical respirator with organic vapor cartridge and full facepiece. Wear NIOSH approved respirator appropriate for airborne exposure at the point of use. Check with respiratory protective equipment suppliers.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

# 9. Physical and chemical properties

Appearance	
Physical state	Solid.
Form	Liquid soaked wipe.
Color	Clear.
Odor	Hydrocarbon. Solvent odor.
Odor threshold	Property has not been measured.
рН	Property has not been measured. (liquid)
Melting point/freezing point	Property has not been measured. (liquid)
Initial boiling point and boiling range	244.4 - 302 °F (118 - 150 °C)
Flash point	57.2 - 64.4 °F (14 - 18 °C) Tag Closed Cup
Evaporation rate	1 (ASTM D3539 n-Butyl Acetate = 1)
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or exp	losive limits
Explosive limit - lower (%)	0.9 %
Explosive limit - upper (%)	7 %
Vapor pressure	1.5 - 2 kPa (68 °F (20 °C))
Vapor density	4.1 (Air = 1)
Relative density	0.74 - 0.76 (60 °F (15.56 °C))
Solubility(ies)	
Solubility (water)	0.05 g/l Negligible.
Partition coefficient (n-octanol/water)	Not applicable to mixtures.
Auto-ignition temperature	608 °F (320 °C)
Decomposition temperature	Property has not been measured.
Viscosity	Property has not been measured. (liquid)
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
Percent volatile	100 %
10. Stability and reactivity	
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Avoid heat, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Oxidizing agents. Strong acids. Alkalis.
Hazardous decomposition products	No hazardous decomposition products are known.

# 11. Toxicological information

# Information on likely routes of exposure

	information on likely routes of e	•	
Eye contact         Direct contact with eyes may cause temporary initiation.           Ingestion         Not likely, due to the form of the product. However: Droplets of the product aspirated into the lungs through ingestion or women and pneumonits. May cause drowsiness or dizziness. Physical, chemical and infection.           Symptone related to the product aspirated into the lungs through lungestion or women and pneumonits. May cause drowsiness or dizziness. Information on toxicological effective.           Acuto toxicin         May be fatal if swallowed and enters ainways.           Skin corosion/infration         Causes skin infration.           Respiratory sensitization         Not a respiratory sensitizar.           Respiratory sensitization         Not a respiratory sensitization.           Germ cell mutagenic or genotoxic.         Not dia sensifiable to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.           Ration of Carcinogenicity         Not dia sensifiable to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.           Not listed.         Not isselfable to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.           Not listed.         Not classified.           Not isself.
