

Contec® Sterile IPA

Sterile isopropanol in purified water

Contec® Sterile isopropyl alcohol is a ready-to-use IPA solution pre-filtered to 0.2 micron and gamma irradiated. Containing USP Grade IPA and USP grade purified water and is designed for use in pharmaceutical, medical device, and other life science industries. Each bottle is double-bagged to ensure sterility and printed with lot number and date of expiration for easy record keeping. Validated sterile to a 10⁻⁶ SAL per ANSI/AAMI/ISO 11137 guidelines.

Note: Sterility validation is performed after trigger sprayer is installed.

A convenient trigger sprayer with settings for stream or mist spraying is included with 16 and 32 oz. bottles. The stream setting is ideal for targeting specific hard to reach areas, while the mist setting is used to cover larger areas. Each leakproof bottle is induction sealed, capped and shipped with an uninstalled trigger sprayer to eliminate the occurrence of leakage. Instructions for sterile installation of the trigger sprayer are available.

Product Application

- Wipe down of isolators, cabinets, laminar flow hoods and surfaces
- Use on gloved hands in sterile suites
- Wipe down products and equipment for pass through to controlled environments
- Ideally suited for use with sterile cleanroom wipe
