

5 Gallon Double Bucket System

5 gallon (20 L) Double Polypropylene Bucket System

Contec's Double Polypropylene Bucket System is a fully autoclavable stainless steel rolling cart with two polypropylene 5 gallon (20 L) buckets, and stainless steel drip cap. Its durable, yet lightweight construction makes the bucket system easy to maneuver around cleanrooms. The system is available with either standard casters or heavy-duty casters. The use of the Double Bucket System allows for color-coded differentiation between cleaning and waste solutions.

The 5 gallon (20 L) autoclavable buckets are compatible with two types of wringers, curved or flat, depending on the mop used.

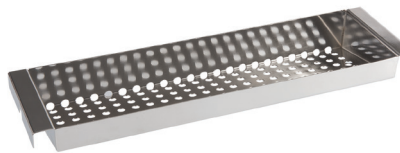

Features	Benefits
Compact, lightweight design	<ul style="list-style-type: none"> • Easily maneuvers around the room • Ideal for smaller cleanrooms
Blue and red buckets	<ul style="list-style-type: none"> • Differentiates the clean solution from waste
Wringer options	<ul style="list-style-type: none"> • Compatible with Contec's flat and curved mops
Fully autoclavable	<ul style="list-style-type: none"> • Ideal for most critical environments
