

CONSTIX® Sealed Foam Swab SF-9

Mini flexible tip sealed foam swab

CONSTIX® SF-9 sealed foam swab consists of polyurethane foam bonded to a polypropylene handle without the use of adhesives or binders.

The polyurethane foam head provides good particle entrapment and removal. The absorbent foam enables solvents, such as isopropanol and ethanol, to be readily sorbed for applications involving solvent delivery or removal. Excellent for applying resins and adhesives.

Though compatible with many common solvents, the SF-9 is not recommended for use with ketones such as acetone or MEK.

Features	Benefits
Mini flexible tip	<ul style="list-style-type: none"> Enables access to small areas and crevices
Polyurethane foam head	<ul style="list-style-type: none"> Provides good particle entrapment and solvent compatibility

Part No.	Description	Size	Packaging
SF-9	CONSTIX Sealed foam swab	Head dimension: 0.14" x 0.3" (3.6 x 7.6 mm) Handle diameter: 0.10 (2.5 mm) Total length: 2.6" (66.0 mm)	500/case

Product Information	
Head material	<ul style="list-style-type: none"> • 100 PPI open-cell polyurethane foam
Handle material	<ul style="list-style-type: none"> • Polypropylene handle
Construction	<ul style="list-style-type: none"> • Thermally sealed and attached
Packaging materials	<ul style="list-style-type: none"> • Outer bags (BG): low density polyethylene (LDPE)  • Case (CS): corrugated fiberboard (PAP)
